

LivOn Labs' Lyo-Spheric™ Vitamin C

- 1,000 mg non-GMO, High-Quality Vitamin C
- 1,000 mg non-GMO Essential Phospholipids
- Each carton contains 30 packets
- Supports Paleo, Zone and Vegan diets

Lyo-Spheric™ Vitamin C is Encapsulated in Liposomes made from Phospholipids. Why?

Phospholipids are primary building blocks of the cellular membrane – the thin, protective wall around each cell in your body. This phospholipid wall functions as a skin for each cell, keeping things in or out.

To repair damaged cells, your body needs a constant supply of phospholipids. While your body can make some phospholipid compounds on its own, others must be supplied by your diet. These are called “essential phospholipids.”

Encapsulating Vitamin C in Phospholipids Gives Your Body a Powerful 1 – 2 Punch.

You get the benefits of Vitamin C and help satisfy the body's ever-growing need for essential phospholipids, including Phosphatidylcholine (PC). PC is one of the most important phospholipids required for maintaining a healthy cardiovascular, reproductive, immune, and nervous system.*

This diagram of a liposome cutaway shows how the tails of phospholipids turn inward to form a bilayer membrane, and encapsulate a therapeutic agent.

Lyo-Spheric™ Vitamin C

LivOnLabs.com

Why are Lypo-Spheric™ Products Superior to Traditional Pills and Powders?

The Difference is the Delivery. With our Liposomal Encapsulation Technology, you absorb more.

After all, what's the point of taking a high-dose supplement if you're only absorbing a fraction of what you're ingesting? We have created a supplement with power that surpasses the competition and astounds skeptics with its bioavailability.

LivOn Labs' 21st century delivery system ensures that nutrients get into your cells where they are needed most.

IT'S ALL ABOUT THE DELIVERY!

LivOn Labs' nutrients are encapsulated and protected by microscopic bubbles called Liposomes (Lypo-Spheric™).

Liposomes are made of Phospholipids, the same material that makes up your cells - allowing the nutrient to pass through cell walls, intact and ready to work.

Unlike pills and powders which are flushed from your system, Lypo-Spheric™ products pass through your digestive system unharmed.

No bowel intolerance and no vitamin flush means more of the nutrient reaches your cells.

Lypo-Spheric™ Vitamin C - the Perfect Vitamin C Delivery

Vitamin C, an essential nutrient and powerful antioxidant:

- **Protects your cells from the damage caused by free-radicals***
- **Supports your immune system***
- **Supports collagen production for healthy and firm skin, muscles and joints.* Collagen is the protein substance that is the basis for the body's skin, bone, teeth and other connective tissue.**
- **Enhances the health-promoting effects of exercise and reduces exercise-induced oxidative damage.***
- **Helps to combat oxidative damage caused by smoking and exposure to tobacco smoke.***
- **Supports healthy gums.***

Why Should You Choose Lypo-Spheric™ Vitamin C?

Most ordinary forms of oral Vitamin C - tablets, capsules, powders, liquids and even the Vitamin C from your diet - are not processed and absorbed efficiently by your body. As a result, much of this Vitamin C is never transferred into your bloodstream and even less of it makes it into your cells where it's needed most.

In fact, when you take 1,000 mg or more of regular oral Vitamin C, more than half of it is passed as waste by your body.

Until now...

LivOn's Lypo-Spheric™ Vitamin C encapsulates the C molecules in liposomes made from Essential Phospholipids, which protect the C from destruction by your digestive system. Within minutes of taking Lypo-Spheric™ Vitamin C, liposomes filled with Vitamin C are transported directly into the bloodstream, and into the cells.
